Mounting instructions - Mute

Börja med att fästa medföljande vajer i taket.

Start by attaching Included wire in the ceiling with suitable hook for your ceiling.

Ceiling mount is not included in you purchase as different materials requires different attachment.

Therad the wire through the wire look according to the picture. The wire look allows you to adjust the height easily.

Assemble the absorbers with included distances. This is easily made by screwing the distances to the bolts of the absorbers.

Wire goes in here
